## **Bible Reading Record**

God's Word is life to us! Read Psalm 19 to discover just a few of the wonderful benefits of reading His Word. Here's a simple plan: Spend 15 minutes of reading time each day and you can read the entire Bible in one year. Read three chapters every weekday and five on Sundays. If you miss a day, don't sweat-it. Keep reading and don't give up!

*How you read is far more important than how much you read.* Be alert. Make notes. Mark or underline passages that seem especially meaningful. Ask yourself the meaning of what you read. Dwell on how the meaning affects your life--what you believe, think, how you act. Ask the Holy Spirit to apply the Word to your life. Discuss it with family and friends.

Many people will not read the Bible in the order that it appears below. But in whatever sequence you choose to read, mark (X) each chapter on the chart as you complete it.

Happy and blessed reading!
